

House Numbers 4 " Tall

Your house numbers should be printed in numbers that are **NO LESS THAN 4 " TALL** and in contrasting colors from your house color

- Your house numbers should be visible up to 150 feet, from all angles.
- Be sure your house numbers can be seen at night
- Keep your numbers clearly visible throughout the year
- As a test, ask neighbors, friends, or service people who visit your home if they saw your house numbers easily

How to Properly Post Your 911 Address

Residences, Townhouse, and Businesses

- ❖ On The Mailbox
 - 4" reflective numbers
- ❖ On the Structure or Above-ground Sign
 - 4" reflective numbers
- ❖ Whichever method is chosen, the address must clearly identify which structure the address belongs to and must be visible from both sides of the street or road the structure is located on or is closest too.
- ❖ All posted addresses must be visible during both day and nighttime hours and contrast in color with the background to which they are affixed.

Private Lane and Long Driveways

- ❖ If any addressed structure is located so that the address number is not clearly visible from the street, an additional address number shall be posted at the intersection of the driveway with the public street.
 - 4' reflective numbers, contrasting in color with the background on which they are affixed. Visible day and night; placed upon a post or other structure which displays the number. It is recommended that they are at least 48 inches above the ground

Industrial and Commercial Structures

- ❖ Not less than 6" reflective numbers if the structure is on a local highway and 8" if on a State Highway
- ❖ When Possible, the number shall be displayed beside or over the main entrance of the structure.

Apartment Buildings and High-rises

- ❖ 6" reflective numbers recommended.
- ❖ Display above or to the side of the primary entrance
- ❖ Individual units within the complex shall be displayed on, above, or to the side of the doorway of each unit.
